

**2** Embedded systems are used in many electronic devices.

- (a)** Describe the drawbacks of embedded systems.

.....  
.....  
.....  
.....  
.....

[3]

- (b)** An embedded system has Dynamic RAM (DRAM).

Identify **one** benefit of using DRAM instead of Static RAM (SRAM) in an embedded system.

.....  
.....

[1]

- (c)** Give **two** differences between Erasable Programmable ROM (EPROM) and Electrically Erasable Programmable ROM (EEPROM).

Difference 1 .....

.....  
.....

Difference 2 .....

.....  
.....

[2]
